With Amtico you have an unrivalled choice of long-lasting Wood, Stone or Abstract flooring. Through our adaptable collections you can mix and match laying patterns or experiment with borders and motifs to give you endless combinations.

Designed & made in Britain

Design talent, innovative manufacturing processes and precise craftsmanship are at the heart of Amtico. With a solid reputation for expertise and skill, our luxury flooring is crafted at our specialist factory in Coventry, England, and known around the world for its genuine provenance and quality.

Quantum Guard Elite

Amtico uses the industry's most technically advanced layering system. The world-leading Multiple Performance System gives underfoot comfort and high resistance to wear and its crowning feature is our new urethane layer, Quantum Guard Elite. Not only does it eliminate the need to polish but it also enhances durability and is easy to clean.

Bevelled edges

All Amtico planks and tiles are finished with bevelled edges. Each edge is precisely chamfered, so when fitted they make a 'V' in the join, creating a more defined finish.

Amtico is:

- Scuff and stain resistant ✓
- Waterproof ✓
- Comfortable underfoot ✓
- Quiet ✓
- Low maintenance ✓
- Hygienic ✓
- Underfloor heating compatible ✓

Stripping.

Planks and tiles can be set next to each other or divided by a thin line of stripping. The stripping helps to define your grout style and can be as subtle or bold as you like, so different size options are available to order – it's all about the width and colour of the line.

Caring for your floor in four easy steps...

Amtico Floorcare products are available from your nearest retailer.

1

Protect the surface

Perfectly pristine

To keep your floor as immaculate as the day it was fitted, add protective felt feet or glides to your furniture. Included in your Amtico Starter Kit, they help reduce the risk of scratching your floor. Try increasing the contact area between your furniture and floor to spread the weight, which will also help to reduce the risk of dents.

2

Remove dust and dirt

Looking good

The key to maintaining any floor is to keep it clean, and the beauty of Amtico products is that there is very little maintenance required. Sweep frequently, mop occasionally and use an Amtico Entrance mat to reduce the chance of dirt and grime being walked onto your floor.

3

Brush and mop up

Sparkle and shine

We recommend Amtico Floorcare Maintainer for regular cleaning with a standard string mop – this will remove any marks that don't disappear with a light sweep. For full care advice, visit amtico.com or your nearest Amtico retailer.

4

Spring clean

Clean as a whistle

Once a year, or as and when required, do a deeper clean. Use Amtico Floorcare Stripper to remove any ingrained dirt – simply apply the prepared solution, leave for 10 minutes, then thoroughly rinse twice. Once the floor is dry, apply Amtico Floorcare Dressing for a fresh new look.

Amtico Spacia offers a 25-year warranty. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 25 years from installation.

Amtico Form offers a 30-year warranty. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 30 years from installation.

The Amtico Signature warranty is for the lifetime of the purchaser. If the house is sold, the warranty is transferable to the next and all subsequent owners, with a limit of 35 years from installation.

The warranty means that in the event of 'wear-out' from normal foot traffic, the floor will be repaired free of charge. Wear-out means the removal of the pattern and colour from the Amtico floor caused by the removal of the protective wear layer. Damage caused by stains, spillages, burns, scratches, indentations, floods and any other accidents or abuse, as well as any reduction in the surface gloss due to normal wear and tear, is excluded from the guarantee.

Every effort is made to achieve accurate reproduction of products in this brochure; however, printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They only give a general indication of the design. Tone and shading can vary slightly from batch to batch, and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification. Brochure correct at the time of printing.
