

Rich textures

Our Da Vinci stone collection features an array of designs taking inspiration from the rich textures of natural stone, weathered steel, woven fabric and more.

Each tile features a light surface finish giving a smooth look and feel, highlighted with the wide distinctive bevelled edge. The deep bevels capture the light and allow each tile to stand out within the overall floor, or pair with a complementary design strip to further enhance the tile size.

From the sandy beige hues of Sienna Limestone to the deep mottling of Eisen, and everything in between, there is something to pair with modern and classic interiors alike.

Featured product: Sable CER16 with Davyne border

Sienna Limestone LST02

Bluff CER18

Alabaster CC04

Sienna Limestone LST02

Dune CER15 with Davyne border

Design strips

Add design strips between individual tiles to create a natural grout effect, or use a combination of strips to create a tramline border to frame your room.

Molten CER11

Our Inspiration

Our product designers were inspired by the natural weathering process of steel, and the colours and patterns created by the ongoing oxidation process. The smooth, shiny surface of the original steel endured wind and rain which transformed it into a beautiful marked and weathered structure.

This effect was then brought into four related colourways, each creating a slightly different and unique look, demonstrating nature's effects on man-made material. Molten represents the striking rust tones of the original oxidised product, while Iron Ore and Eisen take this effect into more muted tones. Carbon is the most subtle of the four and the dark colour brings out further attributes of the original weathering that are less noticeable in the brighter colours.

Design tip

The deep bevels of the Da Vinci range catch the light and allow you to create a beautiful floor with impact without using design strips between tiles.

Carbon CER14 with Accent border

Traditional & elegant

Our Da Vinci wood collection features classic, timeless designs taking inspiration from a variety of wood species, ensuring there is something to pair with every style.

Each slender plank features a light surface finish giving a smooth, elegant look to the designs highlighted with the wide distinctive bevelled edge. These deep bevels capture the light and allow each plank to stand out within the overall floor.

From the warm, pale tone of American Oak with its subtle grain detail, to the contrasting planks of Scorched Oak, and everything in between, there is something to match every interior décor.
